# Overview

---

- **About Us**
- **Government Objectives**
- **The e-Government**
- **Dictates of Best Practices**
- **Nigeria Today**
- **How We Can Help**

# About Us

---

- Daniel Eke and Associates, P.C., was established in 1991
- Is a diversified, technical and professional information technology consulting and certified public accounting firm
- Located in the Washington, DC metropolitan area

## About Us Contd.

---

- Has 8(a) and HUBZONE certification
- Focuses on providing Accounting and Auditing Services to the Federal government
- Complies with AICPA peer review requirements
- Highly trained work – force

# About Us Contd.

---

- Our Federal Government clients includes:
  - Department of Justice – INS and US Marshall
  - Department of Treasury – US Mint
  - Department of Health and Human Services
  - Department of Education
  - Department of Transportation – TASC
  - Department of Labor
  - Department of Defense – NAVSEA and NAVAIR

# Government Objectives

---

- National Defense
- Systems of Laws and Regulations
  - Foreign Policy and Trade Relations
- Safeguarding Public Assets
- Social Services
  - Promoting desired behaviors
  - Compassionate services to the less fortunate

# The e -Government

---

- Integrated Approach to the fusion of Technology and Business Processes:
  - Analyze entity's needs to capture short and long term objectives;
  - Analyze current technology to identify security needs, loss prevention processes and network hardware and software configurations;
  - Prioritize objectives and needs;

# Integrated Approach to the fusion of Technology and Business Processes Continued

---

- Implement plan;
- Train employees;
- Provide on-going maintenance and support; and
- Communicate processes, procedures and concerns at each level.

# Dictates of Best Practices

---

- The need for greater accountability to citizens require governmental entities to adopt operating strategies similar to ones in the private sector. These strategies include identifying *best practices*, documenting them, encouraging their use and dispersing information to all the employees.

# Nigeria Today

---

- Government lacks accountability
- Resources are not optimized
- Lack of transparency
- Communication break down
- Programs lack effective appraisal measures

# How we can help

---

- By providing technology solutions
- By identifying best practices and adopting accounting controls
- We can help any government improve through:
  - *Technology*: Increase efficiency and productivity;

# How we can help Cont.

---

- ***Consultation:*** Use a proactive approach to achieve your goals;
- ***Optimization of Resources:*** Properly account for monies received and comply with applicable laws and regulations;
- ***Internal Controls:*** Develop internal controls to serve as a platform for benchmarking and safeguarding government assets;

## How we can help Cont.

---

- ***Development of accounting policies and procedures:*** Shows the process for implementing all of your accounting policies and procedures. Benefits include improved security, ease in managing transitions, reducing opportunities for embezzlement/employee dishonesty, and lessening dependency on just a few individuals;

# How we can help Cont.

---

- ***Strategic Planning:*** We look into the future with you to help develop your vision and mission statements; and
- ***Budgeting And Forecasting:*** We can help you to create a vision of the future by budgeting, forecasting, and developing a process for training staff because it's essential that they share your vision of the future .

# Conclusion

- We bring your world together
